Allan Bock - Builder
CCNL Hall of Fame
2022

Allan Bock has always been a team player. His philosophy is that “No person is an island when it comes to volunteering. It takes a group of people pulling on the rope at the same time to do things and move things forward.” Over the past 29 years, Allan has helped clubs across the province to expand their infrastructure, grow their Junior Development Programs, create racing opportunities and improve the quality of Nordic ski coaching in NL. Allan puts his heart and soul into everything he does and works diligently towards achieving common goals. Allan’s drive and determination have been instrumental in helping the ski clubs of Aurora Nordic (ANSC) and Birch Brook Nordic (BBNSC) as well as Cross Country Newfoundland and Labrador (CCNL) build the capacity to host events and grow their membership base

Allan was a member of ANSC’s executive from 1994 to 2009. During this time, he became Northern Vice-President of CCNL from 1995 to 2008. Allan moved in 2010 to Happy Valley-Goose Bay where he became a member of BBNSC and is now Co-Chair. At ANSC, Allan played a big part in the development of the club by working with others to secure funding for improving groomed trails, lighting for night time skiing, a groomer, a stadium and lodge.

His commitment to attracting youth to the sport has always been a primary focus. He helped establish the ANSC’s race team, The Aurora Vees, which attained many winning performances. Allan has coached at ANSC and BBNSC while promoting an inclusive atmosphere where youth are encouraged to do their best. Allan is a critical contributing member of BBNSC. Over the years, he has worked with others in helping to transform the Club’s Junior Development Ski Program. Allan is a role model to our youth and an inspiration to those of us who have worked, volunteered, and skied with him.
